WWW.COPENHAGEN.DESIGN

COPENHAGEN DESIGN is a Danish company that design, develop and produces high-end products under the license of PANTONE LLC within products for home and office.

Copenhagen design is the only licensee that produces with the original color chip code, that is exact match to Pantone professional color system.

Copenhagen design sells in more than 50 countries around the world.

LIFE IS COLOR. This is how we see the world, and we experience the joy of working with colors every day. So let's share the love of color and, together make the world a more creative place.

The designers

The PANTONE products by COPENHAGEN DESIGN are designed by two internationally renowned Danish designers: Søren Varming and Ulrik Nordentoft. Both have won several prizes for their designs, including the prestigious Red Dot Award and Best of the Best Design Award.

Søren Varming specializes in graphic design and has, amongst others, designed award-winning graphic identities for museums and leading international businesses. Søren also designed the official logo for HM the Queen of Denmark to celebrate her 80th birthday in April 2020. Ulrik Nordentoft works with product and interior design, and has designed several classics for acclaimed Danish design companies.

The result is a portfolio of functional products, which celebrate the joy of color.

**A world
infused with
colors**

Life is colors. This is how we see the world at Pantone. And we experience the joy of working with colors every day.

Working professionally with colors, we recognise that no two people see colors in exactly the same way. In fact, it was with this insight in mind that we invented the PANTONE MATCHING SYSTEM® over 50 years ago.

Today, this is used daily all over the world, by art directors and designers to infuse their work with color – and ensure that their choice of color is true to their original idea.

Through the collection of PANTONE lifestyle products made by Copenhagen design, we want to share our love of colors and enable you to express yourself through colorful accessories like a coffee cup in vibrant yellow, a key chain in daring pink or a water bottle in classic dark blue.

A still life photograph featuring two yellow tulips with green leaves and stems, placed inside a white ceramic mug with a yellow band. The mug has the 'PANTONE' logo printed on it. The scene is set against a dark blue background, with dramatic lighting that creates strong highlights and shadows. The tulips are positioned diagonally, with one on the left and one on the right, both pointing upwards. The mug is centered in the lower half of the frame.

CSR and Sustainability

In the emerging world of sustainable practices and corporate social responsibility, knowing and being in control of your supply chain is increasingly essential. And Copenhagen Design wishes to sustain this focus throughout our production process.

It is about the choices we make, about being consistent. And transparent. We require of our manufacturers that they adhere to applicable laws and regulation consistently and conscientiously. We monitor the auditing processes and follow up on a regular basis.

Product sustainability

Some of the choices we make include finding sustainable materials for our products, such as the plastic product Tritan. It contains no bisphenols, neither BPA nor BPS, making it the safe choice for our clients – and for the end users of each item produced.

Another example is our manufacturer in Thailand who produces all our ceramics. They have recently converted as much as a third of their electricity consumption to solar power by installing their very own solar panels on the roof of the facility. This comes on top of their focus on waste water management and initiatives like changing all fixtures in the factory to LED lighting.

Working environment

Sustainability is not only about products and processes, it is also about the people who work for us. It is a perpetual process of improvement, but all our manufacturers are also audited on a regular basis when it comes to living and working conditions for their employees, from safety in the work place to worker's rights and environmental regulation. We could mention, for example, that all workers are employed on contracts defining their tasks, set hours and wages – something we perhaps take for granted.

At Copenhagen Design we welcome and applaud all improvements and continue to monitor and support the journey towards a more sustainable future in all its aspects – from each original design through all steps of the process to finished keychain, mug or umbrella.

PANTONE Color of the Year 2021

13-0647 Illuminating

17-5104 Ultimate Gray

Coy 21 this is a combination of 2 colors, we at Copenhagen design would in these new times call this color of HOPE.

17-5104 Ultimate Gray

Key Words: thoughtful, resilient, reliable, quietly assuring, pragmatic, solid, dependable

13-0647 Illuminating

Key Words: Illuminating, hopeful, vitality, optimism, friendly, joyful, bright, energizing, cheerful

A marriage of color conveying a message of strength and hopefulness that is both enduring and uplifting.

Practical and rock solid but at the same time warming and optimistic, this is a union of strength and positivity.

A pairing of colors that emboldens the spirit, highlighting our innate need to be seen, to be visible, to be recognized, to be valued, to have our voices heard.

The more things we can see and the more things we can contribute, the better we are as a people. That is part of what we need, what people strive for.

A story of color that encapsulates deeper feelings of thoughtfulness with the promise of something sunny and friendly.

A close-up photograph of a person's hand holding a bright yellow rectangular color swatch. The hand has red-painted fingernails. A white label is affixed to the swatch, featuring the text 'PANTONE®' in a bold, sans-serif font, with 'Yellow 012' printed below it in a smaller font. The background is a solid black, providing a high contrast for the yellow swatch and the white label.
